AYERU'S PILLISS,

A new ond singularly successful remedy for the acure of all lilious discuses — Contiveness, Indigestion, Jaundice, Bropsy, theometism, Fevers, Giout, Humara, Nervousseas, Irritability, Indiammations, Headoche, Pains in the Breast, Side, Back, and Limbs, Feunal Complaints, &c., &c. Indeed, very few are the diseases in which a Purgative Medicine is not more or loss required, and much sickness and suffering might be prevented, if a harmless but effectual Catinatic wore more freely used. No person can feel well white a costive habit of body prevails; besides it soon generates serious and-offen fatal diseases, which might have been a wolded by the timely oud judiclous me of a good purgative. Hence a reliable family physic is of the first importance to the public health, sand this Pill has been perfected with consummate will to meet that demand. We ask nothing but payment for work executed, and yet many of our patrons are sadly neglectful of our just dues; they must either suppose as to rejoice in wealth or else that a newspaper can be conducted without the sid

If all who profess to feel an interest in success of the Herald would thus not, we could afford to reciprocute by publishing a botter and cheaper sheet. AT We are indebted to Hon. U. C. BRECKINRIDGE for the Congressional Globe and Appendix for the second session of the 33d Congress; a valuable addition to our library, for which we tender our cordial acknowledgements.

Mr. B., we are pleased to learn, will be nt home in a few days (off not there now) when he proposes to visit the principal points in his old district, for the purpose of addressing his fellow citizens, who meet him at those points, upon the palitical topics of the day. We are gratified to leave theuthe health of Mr. B. as well as that of his amiable and interesting family dues been greatly recuperated by their recent north-western toar.

While by the old mode of composition, we will be a burdened with more or tess of acrimonious and hinrium qualities, by this each individual virtue only that is desiced for the curative differed is present. All the inect and obnoximus qualities of each substance employed are left behind, the curative virtues only being retained. Hence it is self-exident the effects should prove as they have proved more purely requedied, and the Pills a surer, more powerful antidate trediscuss that any other wadelens knowled to know to the world.

Leaving the fair ground, we were con veyed, in rather unique style, to the l'ar is Hotel, where we found a most clever, hospitable, and whole-souled host; who spreads a luxurious heard, and in all that appertains to the conforts and luxuries of Hotel life, is a model landlor J. We mean no idle compliment; but would advise all travellers, who happen to pass through, or sojourn in, the pleasant town of Paris, to give the Paris Hotel a fair trial; our word for it, they will never repent of having taken our advice. We understood that there was another very good hotel kept in the town, by a Mrs. Thrustou; indeed, if we may judge from the information of others, Paris is well supplied with good Hotels; for our own part we ask for no better entertainment than that afforded at the Paris Hetel by our friend TALLIUT.

Paris, for us, had but few attractions it is probably a much more busy, but not near so handsome a town as our own. In fact, we presume that there are lear towns in the Union that can lay greater and cleanliness than claims to beauty Goorgetown.

Comparisons, however, are odious; we will therefore endeavor to do away the odium by stating that in our recent trip we were compelled to admit, what we have often heard stated as a truth, that the l'avisians, as a class, in the matter of hospitality, sociability and liberality are Kentucky. AUGUST ELECTION.

It has been enshimary, and is proper, for the Sheriff of the county to publish an advertisement of Elections; and we presume, for the information of the vo ters of the County, that that eastern should he continued under the new "powers that he.' And as at the May election, some of our subscribers forgot that there was to be an election, in consequence of not seeing the advectisement in the Horald, we would venture respectfully to suggest, that auch an advertisement should be published; and that as it is a county matter, and there are two parties in the county, represented by two papers, that said advertisement should be pullished, pro bone publico, in both town papers; and not like it was last May, only in one! If the county is too poor to pay us for advertising it, why we will do it graduitously! Last May we published the information gratuitously, in the shape of an editorial; and fearing that this time we should be again excluded from the publication of the advertisement, we have made a virtue of necessity, and again publish it as a gratuitous editorial for the benefit of our patrons. Of course it is well known that we can afford to work gratuitously for the county; for is it not an established fact that daddy's rich?" and that if we have any poor kin we

won't acknowledge them! We are indebted to Mr. Jons Stevens for a copy of the record of
